

**“ Sustainable bio-based systems through effective certification & labelling ”**

[www.star4bbs.eu](http://www.star4bbs.eu)

[@STAR4BBS](https://twitter.com/STAR4BBS)

## What STAR4BBS does:

The overall aim of STAR4BBS is to **maximize the potential of Sustainability Certification Schemes (SCS) and labels to support a successful transition to sustainable bio-based economy.**

STAR4BBS will **develop indicators** and a **new monitoring system** for assessing the effectiveness and robustness of existing international and EU SCS, B2B labels, and related traceability systems applicable to biological feedstock and bio-based materials and products. Thus creating the foundations to support achieving the harmonization between schemes and transparency in global and EU trade flows.

## Who we are

Partners of STAR4BBS have strong experience in developing and applying sustainable standards, indicators and monitoring system, in tracing flows of biological feedstocks and bio-based materials and products and in assessing the costs of adopting SCS and labels. **The consortium** includes partners from **academic institutions, private research institutes, non-profit associations and well established institutions.**

## Who we work with

**Project involves** important stakeholders, including **scheme owners, policy makers, and industries.** They are involved in the design of research and the monitoring system and also in the development of practical recommendations emerging from the research and analysis, to ensure STAR4BBS ultimate goal.
